Bob, We will draft a section on engineering controls and verify SC ore was used after 1980. Is the attached the work plan you are referring to? If so, which items should we prioritize?

Tim

Subject: Fw: Revised draft of Appendix F Section F4

Tim,

Please note we need a brief section describing the engineering control changes to satisfy the comments we have received from NCEA.

Also if you have time try to work on the other changes I requested and those dealing with the comments from the SAB panel. Bill said he forwarded to you the Work Plan for University of Cincinnati that I put together.

I also have a further question about the ore source after 1980. The wording on page F-8 says "Post 1980 usage included African/Virginia/South Carolina vermiculite until 2000." Can you confirm that South Carolina ore from the Grace mine was actually used after 1980?

Subject: Revised draft of Appendix F Section F4

Here is a revised draft of Appendix F Section F4 (Derivation of the JEM).

Please review and provide comments and edits by COB on Monday October 29.

I will incorporate comments and then this draft can be sent to NCEA for review and (hopefully) agreement.
